- Currently - Risk Prevention Specialist at Meta

Also…

- I have a Golden Retriever named Fondu

- I am a certified Web Developer

- I am currently pursuing a diploma in Interior Design

- I have recently been featured on an album by a German Progressive Metal band

RISK PREVENTION?

Goal: maintain safety of users and company while not effecting level of service

Risk can be…

- Known (mitigated proactively or reactively) / unknown (mitigated reactively)

- Financial / personal (data, IP, real-world harm…) / political / regulatory / legal etc.

- Aimed at the user / aimed at the company

SKILLS USED IN RISK

Strategic thinking

Analytical thinking > data storytelling

Communication skills

Working in ambiguous environments (unknown risks)

Logical reasoning and inference

Critical thinking

Ability to work with abstract ideas, adaptability

OTHER THINGS THAT WORKED FOR ME…

Be proactive:

- Networking

- LinkedIn

- Newsletters

- [Let's Phi](#)

- [All Tech Is Human](#)

- [ForHumanity](#)

- [AI Ethics – Ravit Dotan](#)

THANK YOU!
